## KATA PENGANTAR

Urtaian kata, frase, dan kalimat introduksi diawali dengan ungkapan "alhamdulillahirabbilalamin" sebagai bukti kesyukuran atas semua nikmat berupa iman, ilmu, taufik, kesehatan, dan motivasi yang dianugerahkan oleh Allah Yang Maha Mengetahui dan Maha Memberi sehingga buku yang berjudul *Practical English for Islamic Context* ini dapat diselesaikan. Shalawat beriring salam hangat penuh kasih dan cinta juga penulis sampaikan kepada Nabi Muhammad SAW inspirator dunia menuju peradaban iman, ilmu, dan akhlak.

Sebagai seorang dosen, mendidik, mengajar, meneliti, dan mengabdikan kepada masyarakat sudah menjadi bagian dari kehidupan penulis. Untuk menunjang kegiatan pengajaran, penulis senantiasa berpikir kritis, kreatif, imajinatif, dan inovatif untuk meningkatkan kualitas diri penulis dari waktu ke waktu. Salah satu hasil berpikir tersebut adalah buku yang baru terbit ini agar bisa dimanfaatkan sebagai sumber dan bahan belajar di semua jenis dan jenjang pendidikan. Buku yang berjudul *Practical English for Islamic Context* ini merupakan karya penulis berupa buku yang ke-5 dari keseluruhan buku yang telah ditulis dan diterbitkan secara formal serta telah beredar di berbagai daerah provinsi termasuk di pulau Jawa.

Buku ini disusun sebanyak 12 (dua belas) unit dilengkapi dengan lampiran-lampiran. Berdasarkan judulnya, buku ini memuat kajian-kajian Islam tingkat dasar terutama kosakata yang disesuaikan dengan kurikulum bahasa Inggris di perguruan tinggi bagi mahasiswa jurusan dan program studi kajian Islam seperti Pendidikan Islam, Ilmu Al-Qur'an dan Tafsir, Hukum Islam, dan lain-lain. Setiap unit terdiri atas *reading comprehension*, *vocabulary*,

*conversation*, dan *sentence structure*. Dengan kata lain, buku ini telah memuat keempat keterampilan bahasa, yaitu *listening*, *speaking*, *reading* dan *writing*.

Selain itu, buku ini juga sertakan dengan soal-soal latihan (*exercises*) dalam rangka menguatkan pemahaman dan penguasaan bahasa Inggris para pembelajar. Seluruh isinya termasuk soal-soal latihan mengarah pada konteks mahasiswa. Artinya, buku ini sangat cocok untuk mahasiswa di perguruan tinggi yang memiliki jurusan dan program studi tersebut di atas, termasuk siswa Madrasah Aliyah dan masyarakat umum yang ingin mempelajari bahasa Inggris dalam konteks Islam. Tingkat kesulitannya pun disesuaikan dengan kemampuan mahasiswa tingkat pertama atau dasar.

Dalam menggunakan buku ini, para pengajar diharapkan menggunakan metode mengajar yang variatif dan menarik jika menggunakan buku ini karena buku ini dipersiapkan untuk itu. Artinya, isi buku ini tidak menjamin keberhasilan pembelajar tetapi masih ada faktor lain yang lebih dominan seperti metode dan pendekatan mengajar yang efektif dan sesuai dengan tingkat kemampuan bahasa Inggris pembelajar.

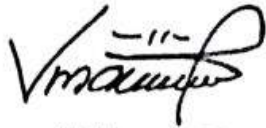

Buku ini diharapkan dapat menjadi salah satu solusi dan jawaban dari masalah pembelajaran bahasa Inggris di perguruan tinggi bidang kajian keislaman yang notabenehnya kebanyakan muatannya merupakan bahasa Inggris umum (*general English*). Padahal tujuan pembelajaran bahasa Inggris di perguruan tinggi adalah untuk membantu mahasiswa mempelajari bidang ilmu mereka melalui referensi yang tertulis dalam bahasa Inggris yang sering disebut dengan *English for Specific Purposes (ESP)*. *ESP* juga berfungsi untuk mempersiapkan mahasiswa yang siap memasuki dunia kerja sesuai dengan bidang keahlian.

Namun demikian, sebagai manusia biasa, berbagai kesalahan, kekeliruan, kekurangan, kelemahan, dan keterbatasan

pasti selalu menyelimuti penulis dalam proses penulisan buku ini. Oleh karena itu, masukan dari berbagai pihak sangat dibutuhkan oleh penulis, baik berupa koreksi, saran, dan kritik yang bersifat konstruktif. Atas koreksi, saran, dan kritik yang bersifat konstruktif, penulis ucapkan terima kasih dan penghargaan yang mendalam. Semoga buku ini menjadi karya yang dapat memberikan manfaat dan motivasi bagi kita semua pihak terutama generasi muda. Karya ini juga diharapkan menjadi kenangan terindah dan amal *jariyah* bagi anak negeri ini, amin.

## UNIT TWO

# INTRODUCTION TO ISLAMIC STUDIES

### ***2.1. Reading Comprehension***

#### ***Text 1***

Islam is an original religion from Allah SWT revealed to all human beings in the world. The main contents are written in the form of the holy Qur'an as the main source and guide. It was revealed by Allah SWT to Muhammad through the angel Gabriel. At that time Muhammad was 40 years old, and he was firstly adopted as a prophet. Muhammad was the last prophet that preached Islam as the last religion as well. So, there is no original religion after Islam.

As an original religion, Islam is a way of how to get a good life and happiness before and after death. If we want to get a good life and happiness after death, we have to take Islam as our way of life. We have to apply or implement all the commands of Allah and avoid all His prohibitions contained in Islam. We have to be faithful in order to get His true love.

Our effort to be faithful can be applied through keeping our relationship to Allah SWT (God relationship) or what we call *hablumminallaah* and our relationship to other human beings (human relationship) or what we call *hablumminannaas*. God relationship can be implemented by believing in “the six pillar of faith” and applying “the five pillars of Islam”.

The six pillar of faith consists: believing in The Only One God, believing in His angels, believing in His holy books, believing in His prophets and messengers, believing in the life after death, and believing in His predestination. Every Moslem has to believe and be faithful in the six pillars of faith. By believing in the six pillar of faith, we can apply all the commands of Allah and avoid all things forbidden by Him. To prove our faith to Allah, we must implement all all the commands of Allah and avoid all His prohibitions. There are some main commands of Allah that are covered in the five pillar of Islam. First, recognizing and saying the confession of faith

(*syahadah*) or bearing witness that there is no other God but Allah and Muhammad is His messenger. The second pillar is praying regularly or having obligatory prayers (*shalat*) five times a day. Third, paying regular charity (*zakat*) to those who are allowed to receive it. Fourth, fasting (*shaum*) during Ramadhan month. ## ***Text 2***

As we know that Islam is an original religion from Allah SWT that covers all aspects of human life. Some others are about the true faith or what we call *aqidah*, attitudes, behavior, or character what we call *akhlaq*, and worship or what we call *ibadah*. These three aspects of Islamic studies are integrated. They have to be recognized and implemented in our everyday life wherever and whenever we are because they have covered two kinds of relationship, namely God relationship and human relationship. In implementing our true faith, we cannot integrate them with any other kind of faith and beliefs, like worshipping idols, believing a power out of Allah, and loving our belongings more than loving Allah. In

Islam, integrating or mixing our true faith with others is called *syirik*. *Syirik* is a kind of actions that is categorized as the biggest sin that the doer cannot be forgiven by Allah, and Allah will place him or her in the hell.

Another aspect of Islamic studies is about attitudes, behavior, or character (*akhlaq*). attitudes, behavior, or character (*akhlaq*) is mental or moral qualities that make a person, group, nation, etc. different from others. Character is always related to attitude and behavior. Prophet Muhammad is the best model who has good attitudes, behavior, or character. That is why, all of us as Moslems have to follow his attitudes, behavior, and character in doing our daily activities such as in doing a business, bulding a friendship, educating our children, being a leader, etc.

Worship is a reverence, respect, or love for God. The act of worship is a form of dedication from human to God as a vertical relationship. In Islam, worship (*ibadah*) can be divided into two kinds, directed worship (*mahdah*) and undirected worship (*ghairu mahdah*). Directed worship is a kind of worship that the rules, requirements, and ways have been modelled by the prophet Muhammad. All Muslims have to follow them without adding and reducing such as praying, fasting, regular charity, pilgrimage, etc. Undirected worship is a kind of worship that the prophet Muhammad have not modelled the rules, requirements and ways yet. All Moslems can do them in many kind of ways. They are: helping other people, praying other people, teaching useful things, etc. Those kinds of worship can be applied by all Moslems without any other motivation. Our motivation to do the worship is merely because of Allah that is usually called *ikhlas* in Islam.

*Answer the following questions based on the text above!*

Anita : “Hello, How are you doing?”  
Sindy : “I am fine, thanks. And you?”

Anita : “What did you discuss yesterday?”  
Sindy : “We discussed Islamic studies. “

- Anita : “Could you mention them?”
- Sindy : “Well. The six pillars of faith are: The Only One God, believing to His angels, believing to His holy books, believing to His prophets, believing to the life after death, and believing to His predestination.
- Anita : “And the five pillars of Islam?”
- Sindy : “The five pillars of Islam that we have to recognize and apply are recognizing and saying the confession of faith (syahadah), doing the five obligatory prays (shalat), paying tithe (zakat), fasting (shaum) in Ramadhan month, and having a pilgrimage (hajj).”

#### **5.4. Sentence Structure: Simple Sentences with “Be” and “Full Verb”**

Dalam menyusun kalimat-kalimat bahasa Inggris, kita tidak terlepas dari istilah *to be*. *To be* merupakan bagian dari kata kerja bantu (*auxiliary verb*) yang berfungsi membantu kalimat yang tidak mempunyai kata kerja sebagai predikat. Dalam hal ini, *to be* berfungsi sebagai predikat. Perlu diingat bahwa semua kalimat bahasa Inggris wajib mempunyai kata kerja sebagai predikat. Jika tidak mempunyai kata kerja sebagai predikat maka *to be* harus dipakai menggantikan posisi kata kerja dalam kalimat tersebut, dan *to be* itu sendiri adalah kata kerja (*verb*). Perhatikan pola umum

kalimat-kalimat bahasa Inggris berikut ini:

<u>Catatan :</u>	
<i>Subject (Subyek)</i>	= Pokok Kalimat/Pelaku
<i>Predicate (Predikat)</i>	= a. Kata yang menerangkan keberadaan subyek b. Kata yang menunjukkan tindakan/pekerjaan yang dilakukan oleh subyek
<i>Object (Obyek)</i>	= Sasaran dari kata kerja, pelengkap (penderita)

Dari pola-pola tersebut di atas, dapat disimpulkan bahwa:

- subject*            → harus **noun (kata benda)**
- predicate*        → harus **verb (kata kerja)** atau *to be*
- object*            → harus **noun (kata benda)**
- complement*    → bisa **noun, adjective (kata sifat)** atau **adverb of place (kata keterangan tempat)**

**Catatan:**

*Object* juga disebut *complement*, namun *complement* belum tentu disebut *object*. Dengan kata lain, *object* pasti *complement*, tapi *complement* belum tentu *object*.

Examples:

1. I like **your book**\*).
2. This is **your book**\*\*).

\*.) **your book** disebut *object* dan juga *complement*.

\*\*.) **your book** disebut *complement*, tapi BUKAN *object*.

Untuk lebih memperjelas pemahaman Anda tentang “*to be*”, berikut ini diperkenalkan semua bentuk “*to be*” menurut penggunaan bentuk waktu (*tense*) beserta pasangan penggunaanya.

Secara keseluruhan, “*to be*” berbentuk:

**Present** : *be, am, is, are*

**Past Participle** : *been*

<u>Subject</u>		<u>Present</u>	<u>Past</u>	<u>Past Participle</u>
I	→	am	was	been
he	→	is	was	been
she	→	is	was	been
it	→	is	was	been
Fahrul	→	is	was	been
Sindy	→	is	was	been
your father	→	is	was	been
your mother	→	is	was	been
you	→	are	were	been
your parents	→	are	were	been

your friends	→	are	were	been

Adi & Ani	→	are	were	been

**Singkatan:**

is not → isn't                      was not → wasn't

are not → aren't                    were not → weren't

*am not* tidak bisa disingkat.

*been* tidak diikuti oleh *not* sehingga tidak ada singkatannya.

Tapi: *been* bisa diikuti oleh *no* namun tidak bisa disingkat.

Perhatikan contoh kalimat berikut:

1. There has been no teacher in our class.
2. There has been no holy qur'an in this mosque.

Perhatikan kalimat-kalimat berikut ini:

dan 10 mempunyai kata kerja (*verb*) sehingga tidak bisa diberi *to be*.

Ditinjau dari segi bentuk, kalimat-kalimat di atas tersusun dalam bentuk kalimat **positif/berita** (*positive*), dan dapat diubah menjadi kalimat **negatif/menyangkal** (*negative*), kalimat **tanya/interogatif** (*interrogative*), dan kalimat **tanya-menyangkal** (*negative-interrogative*). Cara mengubah bentuk-bentuk kalimat tersebut adalah:

- a. Untuk membentuk kalimat negatif, cukup dengan menambahkan kata **“not”** setelah kata kerja bantu **“to be”** (termasuk kata kerja bantu lainnya) bagi kalimat yang sudah mempunyai kata kerja bantu **“to be”** termasuk **“kata kerja bantu (*auxiliary verb*)”** lainnya. Sedangkan kalimat yang tidak mempunyai kata kerja bantu (biasanya dalam bentuk *simple present tense* dan *simple past tense*), harus diberi *auxiliary verb* dulu kemudian diikuti dengan kata **“not”** yang artinya **“tidak”** atau **“bukan”**, yaitu *auxiliary verb* **“do”** atau **“does”** untuk *simple present tense* dan *auxiliary verb* **“did”** untuk *simple past tense*. *Auxiliary verb* dan kata **“not”** bisa disingkat dan bisa juga tidak, kecuali *auxiliary verb* **“am”** dan **“not”**.

Subject + to be + not + noun/adjective/adverb of place

She **doesn't go** to campus five days a week.
  10. I **did not pray** at mosque last night.

- b. Untuk membentuk kalimat interogatif, kata kerja bantu **“to be”** (termasuk kata kerja bantu lain) diletakkan sebelum **subject**, dan kata **“not”** dihilangkan, kecuali kalimat **negative-interrogative** yang masih tetap membutuhkan kata **“not”**.

To be + subject + noun/adjective/adverb of place?

## UNIT THREE

# ISLAM AND EDUCATION

### ***3.1. Reading Comprehension***

Before talking more about Islam and education, the writer would like to describe some definitions of education from different points of view. The definitions are also adopted and adapted from different references and experts of education.

Education is (a system) of training and instruction (especially of children and young people in school, colleges, etc) designed to give knowledge and skills (Hornby, 1989: 385). Education is a process of humanizing humans to be true human beings. Education is a process of cultural transformation from one generation to another (Tirtarahardja and La Sulo, 2005: 33). Education means conscious and well-planned effort in creating a learning environment and learning process so that learners will be able to develop their potential for acquiring spiritual and religious strengths, develop self-control, personality, intelligence, morals and noble character and skills that one needs for him/herself, for the community, for the nation, and for the state (Law of the Republic of Indonesia Number 20, year 2003 on National Education System, chapter 1, article 1, verse 1). The object of education is human being.

Education is obtained not only in schools but also in family life and in the society. This is based on the Law of the Republic of Indonesia Number 20, year 2003 on National Education System, chapter 13, article 6, verse 1) as follows “Educational streaming consists of formal education, non-formal education, and informal education, which can complete and enrich each other”.

In Islam, education is very important. The first letter (*surah*) of the holy Qur’an, revealed by Allah SWT to the prophet Muhammad was *al-‘alaq*, verses 1 to 5. The verses state that Allah commanded human beings to read, to learn, to think, and to analyze many things in their life in order to know the nature of human existence in the world. Before commanding humans in other aspects of life, Allah SWT commands humans to learn or to get education. It

is stated on the eleventh verse of *al-Mujaadilah* of the holy Qur'an that Allah will raise the degree/level of someone who has true faith and science from others. The existence of education is one of the requirements of human life in order to get a better life before and after death. Education is a very great solution of all problems appearing in human's everyday life. Because education is absolutely needed by human beings in their everyday life, it becomes very important to get in all any kind of form and context.

In Islam, it is obligatory for humans to apply all things contained in the holy Qur'an. We also have to know many things in the world. To apply them, we have to learn much through reading, thinking, analyzing, recognizing, and comprehending ourselves and the characteristics, the nature, and the meaning of life. All things accepted in our life as the commands of Allah can only be implemented through education. This process can be implemented by developing and practicing education in our daily life. Many discoveries of science and technology are based on the holy Qur'an. The holy Qur'an is the source of education, science and technology. That is why, we can say that there is a close relationship between Islam and education.

*Answer the following questions based on the text above!*

1. Explain the definitions of education from different points of view!

- Siti : “All of us must be very eager to survive on the world. To get survival, we have to fulfill our everyday needs. In order to fulfill our everyday needs, we have to know how to gain them. We cannot gain our everyday needs without knowledge and education. We can also regulate our life by education.”
- Leni : “In what verse of the holy Qur’an is education stated by Allah?”
- Siti : “In the first to fifth of Al-‘Alaq, in the eleventh of Al-Mujaadalah, etc. There are some other explanations about education in the Hadith.”
- Leni : “Is there a close relationship between education and Islam?”
- Siti : “Sure. It cannot be argued that many discoveries of science and technology are derived from the holy Qur’an. The holy Qur’an is the source of education, science and technology.”
- Leni : “I understand now. Thanks for your explanation.”
- Siti : “You’re welcome.”

### ***3.4. Sentence Structure: Simple Present Tense***

Dalam melaksanakan aktifitas keseharian, kita tidak terlepas dari penggunaan waktu. Ketika kita bekerja atau berada dalam suatu tempat, kita pasti membutuhkan waktu. Jika waktu berlalu, berjalan, atau berubah, kata kerja (*verb*) juga turut berubah seiring dengan perubahan waktu. Proses perubahan kata kerja akibat perubahan atau berlalunya waktu disebut “*tense*” yang dalam bahasa Inggris terdiri terdiri atas dua, yaitu *present* dan *past*. Kedua tense tersebut kemudian dijabarkan ke dalam *aspects of tense* yang terdiri atas 16 *tense*, dan salah satunya adalah “*simple present tense*”.

*Simple present tense* digunakan untuk menyatakan, menjelaskan atau menceritakan:

1. kegiatan, pekerjaan, atau situasi di waktu sekarang (tidak sedang berlangsung);

2. kegiatan atau pekerjaan yang dilakukan secara berulang-ulang/rutin atau kebiasaan (*habitual action*);
3. kebenaran umum (*general truth*);
4. kegiatan atau pekerjaan yang akan dilakukan di waktu yang akan datang (biasanya untuk jadwal atau agenda kegiatan).

Dalam menyusun kalimat dengan menggunakan *tense* ini, ada hal yang perlu diperhatikan, yaitu jenis kalimat. Ada kalimat yang tidak mempunyai kata kerja penuh (*full verb*) sebagai predikat sehingga harus menggunakan “*to be*” sebagaimana yang telah dijelaskan pada unit dua. Sebaliknya ada kalimat yang mempunyai kata kerja penuh (*full verb*) sebagai predikat sehingga “*to be*” tidak boleh dipakai. Untuk lebih jelas, berikut ini dipaparkan pola-pola kalimat (*sentence patterns*) dari masing-masing jenis kalimat.

**Pattern 1:**

+	Subject + to be (am, is, are) + noun/adjective/adverb of place
-	Subject + to be (am, is, are) + not + noun/adjective/adverb of place
?	To be (am, is, are) + subject + noun/adjective/adverb of place

Pasangan subyek (*subject*) dan “*to be*”.

I	→	am		you	→	are
he	→	is		we	→	are
she	→	is		they	→	are
Rita	→	is		Rita & Rudi	→	are
Rudi	→	is		the teachers	→	are
the teacher	→	is		the people	→	are
the dog	→	is		the dogs	→	are
the table	→	is		the table	→	are

**Examples**

1. I am a religion teacher.  
 I am not a religion teacher.  
 Are you a religion teacher?      Yes, I am.  
 No, I am not.

2. The mosque in this village is very beautiful.  
The mosque in this village is not very beautiful.  
Is the mosque in this village very beautiful?  
Yes, it is  
No, it is not.
3. Fasting is a duty for all faithful Moslems.  
Fasting isn't a duty for all faithful Moslems.  
Is fasting a duty for all faithful Moslems?  
Yes, it is  
No, it isn't.
4. The holy qur'an and hadith are the main sources of Islam.  
The holy qur'an and hadith are not the main sources of Islam.  
Are the holy qur'an and hadith the main sources of Islam?  
Yes, they are.  
No, they are not.
5. Most people in this city are very faithful.  
Most people in this city aren't very faithful.  
Are most people in this city are very faithful?  
Yes, they are.  
No, they are not.

**Pattern 2:**

+	Subject + present verb (verb I) (-s/-es) + object/complement
-	Subject + do/does + not + present verb (verb I) + object/complement
?	Do/does + subject + present verb (verb I) + object/complement

Pasangan subyek (*subject*) dan kata kerja bantu (*auxiliary verb*)

I	→	do	he	→	does
you	→	do	she	→	does
we	→	do	it	→	does
they	→	do	Rudi	→	does

Rita & Rudi	→	do	Rita	→	does
the teachers	→	do	the teacher	→	does
the people	→	do	the person	→	does
dogs	→	do	dog	→	does
the tables	→	do	the table	→	does

Perlu diperhatikan bahwa dalam kalimat yang tersusun dengan pola *simple present tense* yang terdapat kata “do” atau “does” memiliki 2 (dua) fungsi, yaitu:

1. sebagai **kata kerja penuh** (*full verb*) apabila ia berada pada kalimat positif, datang sesudah *subject* dan langsung diikuti oleh *object* karena ia merupakan kata kerja transitif (*transitive verb*). Kata kerja “do” di sini berartinya “**mengerjakan, melakukan, berbuat**”.
2. Sebagai **kata kerja bantu** (*auxiliary verb*) apabila ia berada pada kalimat negatif, interogatif, dan negatif-interogatif, datang sesudah *subject* namun tidak langsung diikuti oleh *object* melainkan diikuti oleh *full verb* lagi sehingga tidak menutup kemungkinan ada dua kata “do” yang muncul dalam satu kalimat kalimat negatif, interogatif, atau negatif-interogatif.

Perhatikan kalimat-kalimat berikut ini:

1. They always **do** their morning prayer on time.  
They always **do not do** their morning prayer on time.  
**Do** they always **do** their morning prayer on time?  
**Don't** they always **do** their morning prayer on time?
2. She often **does** her houseworks after prayer.  
She **does not do** her houseworks after prayer.  
**Does** she often **do** her houseworks after prayer?  
**Doesn't** she often **do** her houseworks after prayer?

Catatan:

Pada kalimat positif dari jenis ini, kata kerja bantu “do” juga sering sebagai pengganti kata “very” yang artinya “**sangat**”. Kata “very” tidak bisa diikuti oleh kata kerja melainkan kata sifat.

Misalnya:

I **very** like your Qur'an.

I like your Qur'an **very** much. → I **do** like your Qur'an.

### Examples

Yes, they do . .

Keterangan waktu (adverbs of time) yang biasanya dipakai dalam *tense* ini adalah:

today	= hari ini

sometimes	=	kadang-kadang
often	=	sering
occasionally	=	sekali-sekali
seldom	=	jarang
rarely	=	jarang
ever	=	pernah
never	=	tidak pernah

Untuk kalimat yang subyeknya **kata ganti orang ketiga tunggal**, kata kerjanya ditambah akhiran **-s** atau **-es** dengan ketentuan sebagai berikut:

1. Apabila kata kerja (dasar) berakhir dengan huruf **s, sh, ch, x, dan o**, kata kerja tersebut **HARUS** ditambah akhiran **-es**.

Misalnya:

kiss	→	kisses	wash	→	washes
pass	→	passes	go	→	goes
catch	→	catches	do	→	does
watch	→	watches	box	→	boxes
push	→	pushes	mix	→	mixes

2. Kata kerja yang tidak berakhir dengan huruf **s, sh, ch, x, dan o** maka hanya ditambah akhiran **-s**. Artinya, jika kata kerja (dasar) **TIDAK** berakhir dengan huruf **s, sh, ch, x, dan o** maka kata kerja tersebut **TIDAK** ditambah akhiran **-es** melainkan hanya akhiran **-s** saja. Misalnya:

prepare	→	prepares	wait	→	waits
build	→	builds	walk	→	walks
borrow	→	borrowes	repair	→	repairs
pull	→	pulls	gain	→	gains

dig → digs      swim → swims

3. Bila kata kerja tersebut berakhir dengan huruf **y** yang didahului oleh huruf mati (konsonan), maka huruf **y** tersebut harus diganti dengan huruf **i** kemudian ditambah akhiran **-es**. Misalnya:

carry	→	carries	try	→	tries
study	→	studies	apply	→	applies
cry	→	cries	justify	→	justifies
identify	→	identifies	deny	→	denies
verify	→	verifies	ratify	→	ratifies

4. Apabila kata kerja tersebut berakhir dengan huruf **y** yang didahului oleh huruf hidup (vokal), maka huruf **y** tersebut TIDAK mengalami perubahan melainkan langsung ditambah akhiran **-s**. Misalnya:

buy	→	buys	delay	→	delays
play	→	plays	say	→	says
stay	→	stays	pay	→	pays
sway	→	sways	repay	→	repays
lay	→	lays	pray	→	prays

## UNIT FOUR

# ISLAMIC LAW IN HUMAN LIFE

### ***4.1. Reading Comprehension***

Islamic law is a set of regulation, rules, and ways of life created by Allah SWT and sent down to all human beings to regulate their lives in order to get peace, justice, welfare, safety, and better life, both in the world and in the hereafter.

All Islamic laws are contained or covered in the holy Qur'an revealed by Allah to the prophet Muhammad to be given and taught to all mankind, not only Muslims. Besides holy Qur'an as the source of Islamic laws, there is also a set of regulation as the source of Islamic laws produced by the prophet Muhammad, namely *hadith*. There is also a source of Islamic laws created by Allah and the prophet Muhammad. The contents or the messages are from Allah, but the words or sentences are from the prophet Muhammad, called *hadith qudsi*. In addition, there is also a set or a kind of Islamic laws called *ijtihad*. *Ijtihad* is a result of interpretation of the holy Qur'an and *hadith* as well as *hadith qudsi* done by the authoritative Islamic scholars or experts.

World and all its contents consisting of human beings, animals, plants, etc. are created by Allah SWT. All of the creatures of Allah work under the laws of Allah. The laws of Allah can be the law of nature and other kinds of regulation. All laws of Allah have been clearly stated in the holy Qur'an. Both the holy Qur'an and *hadith* are the sources of Islamic laws. All aspects of humans' life have been regulated in both sources of Islamic law (Tabbarah, 1993: 468).

In doing their daily activities covering all aspects of life, human beings must need many things to keep on living or surviving. Generally, all human beings have the same needs and wants such as food, clothes, and shelter. They are economically categorized as primary needs that have to be fulfilled by all human beings without exception. The secondary and luxurious needs of human beings can

be different depending on their ability to fulfill them.

To fulfill all of their needs, human beings have to work hard. Sometimes they have to struggle each other to get a better life. In the process of struggling or competing each other, human beings ever make a conflict because a little bit of goods can be sought by so many people. The conflict will cause a violence or massacre in the society if there is no regulation or law. Islam as a universal religion and the best way of life has regulated all aspects of human beings in order to anticipate or avoid social conflict in the community, nation, and state toward the peace and welfare of human beings on the world. Without Islamic laws, all Muslims may do many bad things and actions. Moral degradation will happen in their daily life. Many kinds of negative activities such as drinking alcohol, consuming ecstasy and other kinds of drugs will be done in their daily life.

If there is no religion laws (Islamic laws), many criminal actions such as raping, murdering, stealing, committing robbery will be rampant here and there. Human beings will kill each other. Parents and children will fight each other. Ideally, children must love and obey their parents, and the parents must love and protect their children, but sometimes it does not happen to some parents and children. There will be no peace and welfare toward a better and meaningful life. Human beings will be restless or uneasy forever. Human beings will be like animals. That is why, Islamic laws are very important to be taught both to Muslims and to all human beings. Islamic laws are also very important whether in family life or in social life.

*Answer the following questions based on the text above!*

1. What is meant by Islamic law?
2. Besides the holy Qur'an as the source of Islamic laws, is there another source of Islamic law? Mention them!
3. What is meant by *hadith qudsi*?

5. Does Islamic law regulate all aspects of human life?

#### **4.4. Sentence Structure: Simple Past Tense**

*Simple Past Tense* merupakan bagian dari *tense* yang digunakan untuk menyatakan, menjelaskan, atau menceritakan pekerjaan, kegiatan, kejadian, pengalaman, atau keadaan di waktu lampau, memori di masa lalu, maupun sejarah di masa silam. Sebagaimana dalam *simple present tense* seperti yang telah dijelaskan sebelumnya, *tense* memiliki dua pola (*pattern*) yang berbeda dan sangat mempengaruhi ketepatan dan makna kalimat.

Ada kalimat yang tidak mempunyai kata kerja penuh (*full verb*) sebagai predikat sehingga harus menggunakan “*to be*”

sebagaimana yang secara jelas telah dijelaskan pada *Unit Two*. Sebaliknya ada kalimat yang mempunyai kata kerja penuh (*full verb*) sebagai predikat sehingga **“to be”** tidak boleh dipakai. Yang berbeda antara *simple present tense* dan *simple past tense* hanya pada bentuk **“to be”** karena perbedaan waktu, yaitu *present* (bentuk sekarang) dan *past* (bentuk lampau) yang juga telah digambarkan secara jelas pada *Unit Two*. Berikut adalah perbedaan penggunaan pasangan **“to be”** di antara kedua *tense* tersebut.

<b>Subject</b>		<b>Present</b>	<b>→</b>	<b>Past</b>
I	<b>→</b>	am	<b>→</b>	was
he	<b>→</b>	is	<b>→</b>	was
she	<b>→</b>	is	<b>→</b>	was
it	<b>→</b>	is	<b>→</b>	was
Wawan	<b>→</b>	is	<b>→</b>	was
Eka	<b>→</b>	is	<b>→</b>	was
your uncle	<b>→</b>	is	<b>→</b>	was
Your aunt	<b>→</b>	is	<b>→</b>	was
you	<b>→</b>	are	<b>→</b>	were
your parents	<b>→</b>	are	<b>→</b>	were
your classmates	<b>→</b>	are	<b>→</b>	were
we	<b>→</b>	are	<b>→</b>	were
they	<b>→</b>	are	<b>→</b>	were
Fatir & Sindy	<b>→</b>	are	<b>→</b>	were

**Singkatan:**

was not      **→** wasn't

were not     **→** weren't

Perhatikan pola kalimat (*sentence pattern*) dengan menggunakan **“to be”** berikut ini:

**Pattern 1:**

+	Subject + to be (was, were) + noun/adjective/adverb of place
-	Subject + to be (was, were) + not + noun/adjective/adverb of place
?	To be (was, were) + subject + noun/ adjective/adverb of place

Pasangan subyek (*subject*) dan “*to be*”.

I	→	was	you	→	were
he	→	was	we	→	were
she	→	was	they	→	were
Fandi	→	was	Fandi & Rani	→	were
Rani	→	was	the teachers	→	were
the teacher	→	was	the people	→	were
the dog	→	was	the dogs	→	were
the table	→	was	the table		were

**Examples**

### Pattern 2:

+	Subject + past verb (verb II) + object/complement
-	Subject + did + not + present verb (verb I) + object/complement
?	Did + subject + present verb (verb I) + object/complement

### Catatan:

1. Kata kerja bantu (*auxiliary verb*) **“did”** merupakan bentuk lampau (*past*) dari *auxiliary verb* **“do”**.
2. Pada kalimat positif dari jenis ini, kata kerja bantu **“did”** tidak bisa dipakai sebagaimana **“do”** atau **“does”**. Mereka hanya bisa dipakai pada kalimat negatif, interogatif, dan negatif-interogatif.
3. *Auxiliary verb* **“did”** berlaku untuk semua *subject*. Artinya, apapun *subject* kalimat dalam bentuk negatif, interogatif, dan -negatif-interogatif pada *simple past tense* dalam konteks ini, hanya *auxiliary verb* **“did”** saja yang dipakai.

Hal yang penting untuk diingat adalah kata **“did”** (termasuk **“do”** atau **“does”** dalam *simple present tense*) memiliki dua fungsi, yaitu sebagai kata kerja penuh (*full verb*) yang artinya **“mengerjakan, melakukan, berbuat”** dan sebagai kata kerja bantu (*auxiliary verb*) yang tidak mempunyai arti. Jadi, jika dalam suatu

kalimat terdapat kata kerja “do” atau “does” (*simple present tense*) yang langsung datang sesudah *subject* pada kalimat positif maka ia berfungsi sebagai *full verb*, bukan sebagai *auxiliary verb*.

Dengan demikian maka kata kerja “did” pada kalimat positif dalam *simple past tense* berubah menjadi kata kerja “do” pada kalimat negatif, interogatif, dan negatif-interogatif karena ia berfungsi sebagai kata kerja penuh (*full verb*). Sedangkan kata kerja “did” pada kalimat negatif, interogatif, dan negatif-interogatif merupakan kata kerja bantu (*auxiliary verb*) yang tidak ada pada kalimat positif. Perhatikan kalimat no. 1 berikut ini:

Untuk membentuk kalimat yang di dalamnya terdapat **kata kerja tidak beraturan**, dapat dilihat pada lampiran buku ini (*irregular verbs*).

4. Meskipun kata kerja hanya terdiri atas satu suku kata, berakhir dengan **huruf konsonan**, namun sebelum huruf konsonan yang terakhir didahului oleh **huruf konsonan** lagi maka huruf konsonan yang terakhir tersebut **tidak** digandakan melainkan langsung ditambah akhiran **-ed**. Contoh kata-katanya:

form	→	formed	walk	→	walked
help	→	helped	call	→	called

## UNIT FIVE

### CONFESSION OF FAITH (SYAHADAH)

#### The Requirement of Being a Moslem

##### 5.1. Reading Comprehension

Getting Islam is not very difficult, but doing all the commands of Allah is sometimes difficult for certain people because they are not shaped by the contents of Islam itself. Everyone who wants to get Islam as his or her religion has to confess a faith “there is no God but Allah and Muhammad is the messenger of Allah”. This confession is what we call “*confession of faith or syahadah* (in Arabic). *Syahadah* is very important for every Moslem. Someone cannot be called a Moslem without recognizing the confession of faith (*syahadah*) because it is an absolute requirement of being a Moslem. *Syahadah* is the evidence that someone becomes a Moslem.

However, *syahadah* is not the only one to be a true Moslem. It has to be followed by implementing all the contents of Islamic law. The law contains commands and prohibitions covering all aspects of life. All good activities, actions, and works of mankind cannot be accepted by Allah without recognizing and saying confession of faith (to be a Moslem). That is why, everyone who wants to be a good Moslem should always pay attention to his or her confession of faith and keep it well (Murata & Chittick, 1994: 132).

*Answer the following questions based on the text above!*

1. What is meant by confession of faith (*syahadah*)?
2. Is getting Islam very difficult?
3. Is doing all the commands of Allah always difficult for all people?
4. Can we take Islam without confession of faith?
5. Should we keep our confession of faith in order to be a good Muslim? Why?

Shinta : “Wa’alaikum salam warahmatullahi wabarakatuh. Hello, Shinta. How are you doing?”  
Hasan : “I’m very well, thanks. And you?”  
Shinta : “Me, too. By the way, I have a new friend, Ani. She will take Islam as her religion. I said to her that she had to say the confession of faith firstly, but she asked why. At that time I was confused to answer this question.”  
Hasan : “So?”

- Shinta : “So, please explain the reason why everyone who wants to take Islam as their religion must firstly say the confession of faith.”
- Hasan : “Don’t you know?”
- Shinta : “Yes, I am confused. I just know the requirement to be a new Moslem, but I don’t know the reason, so I ask you now.”
- Hasan : “Okay. As we know that every Muslum must be pure. In addition, all things that we want to do depend on our intention. If we want to pray, we must start from our pure intention that we do them because of merely Allah. And, in some ities and actions, we must state or declare our intention orally and clearly ”
- Shinta : “What do you mean?”
- Hasan : “Okay. If someone wants to take Islam as his or her way of life, she or she must state or declare besides his intention that she or she wants to be a Moslem.”
- Shinta : “Is it enough to state “I want to be a Moslem?”
- Hasan : “Of course not. The statement has been taught or explained by the prophet Muhammad.”
- Shinta : “What is it?”
- Hasan : “Don’t you know it? What a pity you are?”
- Shinta : “Hmm, oh yes, I remember it now. The statement is “ I declare that there is no God but Allah, and Muhammad is the messenger of Allah”. Is it like that?”
- Hasan : “Yes, one hundred percent correct. Very good. You have known but why did you ask me?”
- Shinta : “I am sorry, I forgot. So, why must we say it firstly?”
- Hasan : “First, it is the procedure that has been ruled in the five pillars of Islam. Second, it deals with declaration. In declaration, it is not enough to say in our heart but it must be orally and clearly stated or mentioned, like the independence of Indonesia, we must state in the form of proclamation as the declaration independence”
- Shinta : “Oh, I see. Thanks a lot for your good explanation. I will explain it to my friend, Ani, in order to make her sure

and take Islam soon.”  
Hasan : “Don’t mention.”

Perhatikan contoh kalimat berikut ini:

1. I **will** pray at mosque tonight.  
I **will** not pray at mosque tonight.

## UNIT SIX

### PRAYERS (*SHALAT*)

#### 6.1. Reading Comprehension

Religion cannot be relied upon if it were not a vital activity through which the spirit seeks deliverance by entrusting its case to the origin it has descended from. Such a vital activity is prayer. Prayer is solemn request to God or to an object of worship. Prayer is not the mere utterance of words or a repetition of certain phrases. It is the practice which the spirit performs to put itself in a private devotion of, and direct contact with the Invisible Power Whose existence man feels even before he can give it a name. Where there is not such innermost relationship, there is no religion (Tabbarah, 1993: 118).

Prayer (*shalat*) is one of the evidence of our dedication and worship to The Single Creator, The Merciful, Allah SWT. It is the main worship. In the hereafter, all our works done in the world will not be counted and judged before counting and judging our prayers (*shalat*). The focus of the judgment is the quantity and the quality of our prayers. When we are praying, all of our thoughts and attention have to be focused and paid to The Almighty God, Allah SWT, what we are saying. All postures and words in the prayers are our innermost request, hope and expectation to Allah.

The second pillar of Islam is prayer which has worked out as an obligation to pray five times a day. They are: *fajr*, *zuhr*, *ashr*, *maghrib*, and *isha* prayers. Authoritative authors such as Al-Ghazali went to great lengths to specify the postures, words, numbers of bows, and proper places and times for prayer, but the primary effect of the second pillar on the common people was to pace them through the day in the great Muslim practice of remembrance (*dzikr*). At each call from the minaret (tower of a mosque), they were to remember the One God whom they served—remember His compassion, His mercy and His justice. Ideally, by praying fervently at the appointed hours, one might forge a chain that linked together

more and more moments of remembrance, so that God progressively came to dominate all one's thought, action, and emotion. And, in fact, witnessing Muslim prayer is a moving experience. The slow chant of the Qur'anic words becomes haunting, stirring even the non-Arabs (Abduh, 2002: 1)

Besides obligatory prayers, there are some other kinds of prayers suggested to the Muslims as the additional prayers or optional prayers. These prayers are dedicated to Allah to prove how faithful we are. They are also done to complete the obligatory prayers. They are: before and after obligatory prayers (*shalat qabliyah and ba'diyah*), midnight prayers (*tahajjud*), directory prayers (*shalat istikharah*), etc.

- Sindy : “Assalamu’alaikum.”
- Fathir : “Wa’alaikum salam warahmatullahi wabarakatuh.”
- Sindy : “I am so sorry, I want to ask you something because I am still confused. Could I?”
- Fathir : “Sure, it’s ok. What makes you confused?”
- Sindy : “About optional prayer. In Ternate I never see people have optional prayer before magrib, but in some places, especially in Java, I always see them have optional prayer before magrib. So, I am confused. Is there a *hadith* about it?”
- Fathir : “Do you mean before or after magrib?”
- Sindy : “Before magrib or *qabliyah*. So, I am asking you now. No problem about after magrib, I see people do it everywhere.”
- Fathir : “Ok, right, I see. Actually, based on the *hadith* from the prophet Muhammad, optional prayer before magrib or *qabliyah* was done by the prophet Muhammad and there is some *hadith* about it.”
- Sindy : “It means that what is done by the people out of Ternate is correct, and the people in Ternate is not correct.”
- Fathir : “It is not about correct or incorrect knowledge. I myself don’t know exactly why the people in Ternate don’t do it, maybe they think that the time of magrib is too short so they don’t want to do it, or maybe they really don’t know about it. For me, it is not important, but

- the most important one is we do the compulsory one, that is the prayer of magrib itself.”
- Sindy : “ But we have teell the people in Ternate especially the committee of the mosques to set the time for it so people can do it.”
- Fathir : “ I agree with you. We have to socialize this one.”
- Sindy : “But I don’t know the reference in the form of *hadith* from Bukhari and Muslim.”
- Fathir : “I will teach you then, I by giving you the book of *hadith*.”
- Sindy : “Why then, not now?”
- Fathir : “Because I don’t bring the book, and I am sorry, I have to go to campus now. See you”
- Sindy : “Ok, I wait for the book. Thanks a lot. See you”
- Fathir : “You are welcome.”

Dalam *present continuous tense* (termasuk *continuous tense* yang lain), kata kerja yang ditambah akhiran **-ing** disebut *present participle*. Cara membentuk *present participle* (menambahkan akhiran *-ing* pada kata kerja dasar) adalah sbb:

1. Pada umumnya kata kerja (dasar) ditambah akhiran **-ing**. Contoh kata-katanya:

learn	→	learning	borrow	→	borrowing
do	→	doing	mention	→	mentioning
discus	→	discussing	discover	→	discovering
speak	→	speaking	entertain	→	entertaining
discus	→	discussing	discover	→	discovering
do	→	doing	repair	→	repairing

2. Kata kerja yang berakhir dengan huruf 'e', terlebih dahulu dihilangkan dulu huruf 'e' tersebut kemudian ditambah akhiran **-ing**. Contoh kata-katanya:

take	→	taking	prepare	→	preparing
write	→	writing	debate	→	debating
make	→	making	drive	→	driving
have	→	having	debate	→	debating
care	→	caring	embrace	→	embracing

3. Kata kerja yang hanya terdiri atas **satu suku kata**, berakhir dengan **huruf konsonan (consonant)**, sebelum huruf mati yang

terakhir didahului oleh satu **huruf vokal (vowel)**, huruf mati yang terakhir tersebut **digandakan** (ditambah satu) kemudian ditambah akhiran **-ing**. Contoh kata-katanya:

sit	→	sitting	dig	→	digging
stop	→	stopping	run	→	running
cut	→	cutting	star	→	starring
scan	→	scanning	run	→	running
scar	→	scarring	swim	→	swimming

4. Meskipun kata kerja hanya terdiri atas satu suku kata, berakhir dengan **huruf vokal**, namun sebelum huruf mati yang terakhir didahului oleh **huruf konsonan** maka huruf mati yang terakhir tersebut **tidak** digandakan melainkan langsung ditambah akhiran **-ing**. Contoh kata-katanya:

start	→	starting	work	→	working
farm	→	farming	lend	→	lending
stand	→	standing	send	→	sending
spend	→	spending	mend	→	mending
push	→	pushing	land	→	landing

5. Kata kerja yang terdiri atas **dua suku kata/lebih** yang **tekanan bunyinya** jatuh pada **suku kata yang kedua/terakhir**, berlaku aturan para butir (poin) ke-3 (ketiga). Contoh kata-katanya:

begin	→	beginning	forget	→	forgetting
rebut	→	rebutting	refer	→	referring
recur	→	recurring	befi	→	befitting
rebel	→	rebellng	occur	→	occurring
recap	→	recapping	repel	→	repelling

6. Kata kerja yang terdiri atas **dua suku kata/lebih** yang **tekanan bunyinya** jatuh pada suku kata yang **pertama** (tidak jatuh pada suku kata yang terakhir), maka **tidak** berlaku aturan para butir (poin) ke-3 (ketiga). Kata-kata tersebut langsung ditambah akhiran **-ing** tanpa perubahan. Contoh kata-katanya:

visit	→	visiting	remember	→	remembering

study	→	studying	display	→	displaying
fry	→	frying	play	→	playing
carry	→	carrying	pray	→	praying
buy	→	buying	dry	→	drying

8. Kata kerja yang berakhir dengan huruf “ie”, sebelum ditambah **-ing**, huruf “ie” tersebut harus dihilangkan kemudian ditambah akhiran **-ing**. Contoh kata-katanya:

lie	→	lying	underlie	→	underlying
tie	→	tying	die	→	dying <sup>*)</sup>

### Notes:

- Cara membentuk *Present Participle* sama dengan cara membentuk *gerund*.
- *Gerund* tidak sama dengan *present participle* meskipun keduanya sama-sama berasal dari kata kerja dasar ditambah akhiran **-ing**.
- *Gerund* adalah kata kerja ditambah **-ing** yang berfungsi sebagai kata benda (noun)
- Hal-hal yang menyangkut *gerund* akan dibahas kemudian.
- Tidak semua kata kerja bisa dipakai dalam *continuous tenses*

(*present participle*). Berikut ini adalah kata kerja yang biasanya tidak dipakai dalam *continuous tenses*:

want	think (jika berarti mengira)	let
like	suppose	have
dislike	remember	belong
prefer	understand	see
hate	know	hear
love	believe	need
realize	notice	mean
consist	contain	seem

(Murphy, 1998: 8)

\*<sup>)</sup> berfungsi sebagai gerund, tidak bisa dipakai sebagai *present participle* (yang biasanya dipakai dalam *continuous tenses*)

## UNIT SEVEN

### TITHE OR ALMS (*ZAKAT*)

#### 7.1. Reading Comprehension

Tithe or alms (*zakat*) is one of the five pillars of Islam. It aims at meeting the social needs of the Muslim society and to improve the economic position in Islam. The term “*zakat*” means purification, blessing and increasing. It is a kind of protection of the wealth of those who have more goods, money, or other kinds of property (Darwis, 2000: 143). In Arabic, charity means purity, and God calls it thus because it purifies the spirit: “Of their goods take alms, wherewith though mightest purify and sanctify them” (9: 103) (Tabbarah, 1993: 139 – 152).

Zakat is an obligatory payment for all Muslims. It means that all Muslims who have been able to pay must pay it in order to perform good personality of all Muslims. Zakat which has been collected will be given to the poor and other people who are permitted to take it according to the criteria stated in the holy Qur’an. Allah will punish those who have been able to pay but they do not want to pay.

There are some purposes of tithe. The first purpose is for self-purification of every Muslims, their goods and property. The second purpose is to feel what the poor feel (hunger and thirst). The third purpose is to reduce the poverty (especially Muslims). The fourth purpose is to get forgiveness, blessing, mercy, and reward from God.

There are some kinds of tithe or alms (*zakat*) that we should know and apply. First, zakat *al-fitr* meaning *personal* and obligatory that must be paid by all Muslims to cleanse or purify themselves. Every Muslims must pay 2 ½ kg of their staple food (wheat flour, rice, etc). It is paid or given during the Ramadhan month. Second, tithe or alms (*zakat*) of gold and silver, paid whenever if they reach the minimum number and time limits (*nisab and hawl*). The minimum amount of silver is 200 dirhams, presently equivalent to

595 grams of silver. The minimum amount of gold is 20 dinars, presently equivalent to 85 grams of gold, or 12 gold sterlings. Third, merchandise alms, paid whenever if they reach the minimum number and time limit (nisab and hawl). The procedure of paying them is the same as the silver and gold alms. Silver alms and gold charity become the standard of counting and paying the alms. Fourth, agricultural products that can be paid based on the percentage determined until 5% of the total number of the produced. Fifth, livestock alms. Sixth, minerals and treasures alms, which also have the same standard and procedures as the previous kinds of alms, paid also using the standard of gold and silver. The payment of all these kinds of alms can be treated like the alms of money deposit by paying in the forms of money that due to 2.5 % of the whole numbers of the property (Tabbarah, 1993: 144 – 145).

All kinds of the alms can be given directly to the persons who are permitted to get or through the committee. The criteria of getting the tithe or alms have been stated clearly in the holy Qur'an (*At-Taubah*, verse 60). The distribution of the alms should be based on the above verse of the holy Qur'an. That is why, the committee should register the names of those who are permitted to get the alms.

*Answer the following questions based on the text above!*

1. What is meant by tithe or alms (zakat)?
2. What are the purposes of alms?
3. When do we pay the *al-fitr* tithe or alms?
4. Who are to pay the tithe or alms?
5. Who are permitted to get the tithe or alms?
6. What verse of *At-Taubah* in the holy Qur'an does explain the people who are permitted to get the tithe or alms?
7. Mention and explain the kinds of alms!
8. How many percents of our money or property should be paid for alms?

9. How many dirhams of our silver to be the minimum amount to pay for alms?
10. Can we pay our alms directly without the committee?

## 7.3. Conversation

### Tithe or Alms (*Zakat*)

- Nisma : "Hello, Udin, Assalamu'alaikum"
- Committee : "Wa'alaikumsalam warahmatullahi wabarakatuh."
- Nisma : "I want to pay my tithe."
- Committee : "What tithe? Tithe of *al-fitr* or tithe of properties?"
- Nisma : "Both. How much is the tithe of *al-fitr* this year?"
- Committee : "Twenty-seven thousand and five hundred rupiah per person. How many persons do you want to pay?"
- Nisma : "Six persons. How much is the total number?"

Committee : “One hundred and sixty-five thousand rupiah for all.”

Nisma : “Here is the money, and here are the names.”

Committee : “Ok. Please wait for a moment. I want to write them in this book. Don’t you pay the tithe of properties?”

Nisma : “Oh, yes. I forgot. How much is my tithe of properties?”

Committee : “It depends on your properties or money or income you have in a year. If it has reached the *nisab and hawl*, you must pay, but if it hasn’t reached the *nisab and hawl* yet, you don’t have to pay.”

Nisma : “What do you mean by “*nisab and hawl*”?”

Committee : “*Nisab* is the minimum amount of your income or properties and *hawl* is the target of the time you get the money or properties you have got in a year. So *nisab and hawl* means the total amount of your income or properties in a year. If the netto of income or money, for example, you get in a year has reached the current price of eighty grams of gold you must pay it, but if it hasn’t reached the minimum amount yet, you don’t have to pay the tithe of properties. Again, please remember, the tithe you must pay is the netto of your income in a year”

Nisma : “How can I count them?”

Committee : “By percentage. You must pay 2.5% of your income or properties in a year you have got in a year. You have to suit it to the price of gold nowadays, after that you accumulate all of your properties or money in a year, and you multiply by 2.5%. The result of your accumulation and multiplication is the total number of your tithe of properties that you must pay. If you haven’t counted it yet, please count it at home.”

Nisma : “Do you have the explanation or guide of counting the tithe of properties?”

Committee : “Yes, here it is. You can read it at home if you are confused, please contact us to help you.”

Committee : “Oay, now let’s pray together.”

(They are praying together for the tithe).  
 Nisma : “Finish?”  
 Committee : “Yes, finish.”  
 Nisma : “Many thanks. Assalamu’alaikum”  
 Committee : “Don’t mention it. Wa’alaikumsalam wr wb.”

Artinya, *tense* ini menjelaskan pekerjaan atau keadaan sekarang namun telah selesai dan tidak ada lagi pekerjaan, yang ada hanyalah akibat atau hasil dari pekerjaan itu.

2. Untuk kata kerja yang beraturan (*irregular verbs*) pada *present perfect tense* dapat dilihat dalam lampiran *Irregular Verbs* pada lampiran buku ini.

Pola dan contoh-contoh kalimat di atas memiliki kata kerja penuh (*full verb*) sebagai predikat (*past participle/verb III*). Namun dalam komunikasi sehari-hari ada juga kalimat yang tidak mempunyai kata kerja penuh (*full verb*) sebagai predikat sehingga harus diberikan **“to be”**, dan **“to be”** yang dipakai harus dalam bentuk *past participle*, yaitu **“been”**.

**Pattern 2:**

## UNIT EIGHT

### FASTING

#### ***8.1. Reading Comprehension***

The term “fasting” is the translation of “*shaum*” (in Arabic). Fasting means abstinence from doing something. Religious scholars define fasting as an abstinence from food, drink, smoking, and sexual intercourse, carried out from dawn till sunset, for the purpose of gaining God’s Content. Fasting is one of the five pillars of Islam (Tabbarah, 1993: 154). It is done during the month of Ramadhan. Ramadhan is the month in which the koran (al-qur’an) was firstly sent down by Allah as a guide to mankind, also clear (signs) for guidance and judgement (between right and wrong).

The principles of fasting are set in the holy Qur’an as follows: “O ye who believe! Fasting is prescribed to you as it was prescribed to those before you, that ye may (learn) self-restraint”. Besides being set in the holy qur’an, the principles of fasting are also set in the hadith of the prophet Muhammad (p.b.u.h). There are many principles (in the qur’an and hadith) underlying the fasting. The Islamic scientists or the experts of Islamic law agree that most principles of fasting coming as hadith have explained about the rules such as the requirements, the pillars, and the things causing the fasting invalid, and any other kind of laws and rules concerning the fasting (Tabbarah, 1993: 154).

Fasting in Ramadhan month is compulsory on every Muslim who has been adult. It means that those who have not been adult yet are not obliged to fast. The crazy or mad men and women are not also obliged to fast. Fasting is not forced for those (men and women) who are sick or still in their journey, but they are not forbidden if they do it. The menstrual women and the women who have just given a birth before forty days are forbidden to fast.

During fasting, we cannot do the forbidden things and activities such as eating, drinking, and doing sexual intercourse from dawn till sunset because they can cause our fasting invalid. In

addition, we cannot scold, insult, and slander other people while fasting because they can reduce our reward from Allah. That is why, we can say that the quality of our fasting is determined by how far we can apply what are obliged to us and what are forbidden to do.

There are some important things that we can learn from fasting. By fasting, we are learning to be patient, to be honest, to have good morals, to purify our heart, etc. The most important thing that we can learn from fasting is our sufferings of hunger and thirst can make us more tolerant and have social sensitivity (Darwis, 2000: 135). This can motivate us to easily help and love the poor. By having social sensitivity, we can make a good human relation and establish a harmony in our society. By helping the poor, we can reduce or omit the gap between the rich and the poor.

*Answer the following questions based on the text above!*

1. What does “fasting” mean?
2. Who are obliged to fast?
3. Was fasting prescribed to the people before us?

- Fahrul : "Assalamu'alaikum. Hello, how's life?"  
Wati : "Wa'alaikum salam warahmatullahi wabarakatuh. Hello, very well, thanks. And you?"  
Fahrul : "I am fine, too. By the way, are you fasting?"  
Wati : "Of course. Why do you asked me like that?"  
Fahrul : "Because I saw you telling someone's bad things."  
Wati : "Is it forbidden? Or, does it make my fasting invalid?"  
Fahrul : "It forbidden, but it doesn't make your fasting invalid. It is called *ghibah*."  
Wati : "What is the punishment for me if I do such thing?"  
Fahrul : "I think you have known that doing *ghibah* makes us get sin."  
Wati : "So, what happens to my fasting? What is the relationship?"  
Fahrul : "Doing *ghibah* when we are fasting can reduce the reward or the quality of our fasting besides getting sin. Do you understand?"  
Wati : "Oh, I see. It means that when we do *ghibah* during fasting, we will get two kinds of punishment. Is right?"  
Fahrul : "Sure."  
Wati : "So, I am very pity because I have been doing *ghibah* many times."  
Fahrul : "Yes, but you can stop it now and say *astaghfirullah* many times. May Allah bless you."  
Wati : "Thank you very much for your explanation?"  
Fahrul : "Any time."

## UNIT NINE

# PILGRIMAGE

### 9.1. Reading Comprehension

In religious term, pilgrimage or *hajj* is the journey made to the Sacred House of God in Mecca for the purpose of performing a religious observance during a certain period of time (Tabbarah, 1993: 160). The purposes of the pilgrimage are to fulfill the point of five pillars of Islam, for self-purification and forgiveness from Allah, and to increase our faith to Allah SWT.

God enjoins the performance of pilgrimage once in a lifetime on all Moslems, both male and female, who are sane of age, and are able to undertake the journey to Mecca. The obligation of pilgrimage is confirmed in both the holy Qur'an and the sunnah (*hadith*). The prophet said: "O people! Pilgrimage is enjoined on you all, so make your pilgrimage." A listener asked him: "Should it be made every year, Prophet?" The latter kept silent until the man repeated the question three times; then he remarked: "Had I said yes, then it would have been so, and you wouldn't be able to carry it out!" (Tabbarah, 1993: 160)

In this connection, God says: "Pilgrimage thereto is a duty owe to God—those who can afford the journey, but if any denied faith, God standeth not in need of any of His creature". The first part of verse requires pilgrimage to be made to Sacred House of God (located in Mecca) by those capable of undertaking the journey, and in the second part there is severe blame on those who refrain from the performance of pilgrimage. If any deny faith relates to what precedes it, and attacks those who, though capable of undertaking the pilgrimage, forsake it, or those who do not believe in its obligation. After all, God is in no need of those who do not visit His Sacred House (Tabbarah, 1993: 160 – 161).

Pilgrimage (Hajj) is the highest of all Moslems practices, even if less than 10% of all Moslems ever manage to perform it. In modern time, about two million Moslems perform the pilgrimage

every year (in Zulhijjah month), and this number seems to be fairly closed to the maximum. Saudi authorities now have put regulations on how many can come from each country, so those who want to perform the pilgrimage have to apply, and many are turned down (Andriyani, 2002: 2). In Indonesia, the numbers and percentage of Muslims who want to have the pilgrimage are increasing from year to year.

*Answer the following questions based on the text above!*

1. What does “pilgrimage” mean?

## UNIT TEN

# THE BOOKS OF ALLAH

### *10.1. Reading Comprehension*

Allah sent prophets and messengers to show us the right path. God, the Kind and Loving Creator, also sent books to be guidance for all mankind. He sent them to His messengers. These books are called the *holy books of Allah*. Allah sent the books through the angel Gabriel. Books of guidance sent by Allah are also called *books of revelation*. In Arabic, revelation means *wahyu*. There are four books of Allah mentioned in the holy *qur'an*. They are the *tawrah*, *zabur (psalms)*, *injl (gospel)*, and *the holy qur'an*. *Tawrah* was sent to the prophet Moses, *psalms* was sent to the prophet David (Daud), and the gospel was sent down to the prophet Jesus (Isa). The last and the most comprehensive book of Allah was sent down to the last prophet, Muhammad (p.b.u.h), that is, the holy *qur'an*. We know the names of the books of Allah from the holy *qur'an*. There was also the scroll or *sahifah*, a kind of book which was given to the prophet Abraham (Ibrahim). The scroll of Abraham cannot be found now (Darwis, 2000: 47)

The original books or parts of the books given to the prophets before Muhammad were either lost or changed. The people took the originals of the books and added their own minds and words to Allah's words written in those books. This is the reason why we do not have these books as they were revealed. The holy *qur'an* is the last and the most complete book of guidance from Allah. It is not only for Muslims or certain group of people and certain period of time, but it is for all mankind, all races, all nations, and for all time. It is with us today, without any change, with nothing added or taken away. It is the universal book of Allah that has to be believed and implemented by all mankind in all aspects of life (Darwis, 2000: 47-48).

*Answer the following questions based on the text above!*

1. Besides sending the prophets and the messengers, what did God send?
2. To whom were the books sent?

## UNIT ELEVEN

# TO WHOM ARE THE BOOKS OF ALLAH REVEALED?

### *11.1. Reading Comprehension*

As explained before, that Allah prescribed His holy books to all mankind. The holy books were sent to His prophets and messengers to be delivered to all mankind in order to become the guidance for their daily life. We also have known that every original and holy religion has its own Holy Books revealed by Allah.

Everyone who believes in God must need spiritual performance to implement what they have believed. Although the concept about God sometimes is different from one another, but they always try to seek the truth of God. The truth of God is also relatively different according to the perception of everyone let alone each religion. The truth of God can only be found by everyone when he believes that it is the natural and great truth based on his own spiritual experience.

Generally, every original religion must have their own holy books revealed by God even the perception of every religion about God is different. As mentioned in the previous chapters that the Holy Books revealed by God are intended to make human life very useful and meaningful. According to the history (of Islam), there are four original holy books revealed by God for all mankind. They are *Tawrah* sent to the prophet Moses, *Psalms (Zabur)* sent to the prophet David, *Gospel (Injil)* sent to the prophet Jesus (Isa), the last and the most comprehensive holy book of Allah was sent down to the last prophet, Muhammad (p.b.u.h), *the holy Qur'an*. (Darwis, 2000: 47) We also have recognized that the holy Qur'an is not only revealed to Muslims, but it is also for all mankind. That is why, believing the holy Qur'an is a must for all mankind in all original religions because it is clearly stated in their holy Books that Islam is the last religion and the holy Qur'an is the most complete and comprehensive holy book. (Murata and Chittick, 1994: 28 – 187)

*Answer the following questions based on the text above!*

## UNIT TWELVE

## **THE HISTORY OF THE HOLY QUR'AN**

### ***12.1. Reading Comprehension***

The holy Qur'an is the book of Allah. All words, phrases, and sentences of the holy Qur'an are the original ones coming from Allah. Therefore, no one can change one of them. No one can add, reduce, or revise the texts of the holy Qur'an. The originality of the holy Qur'an is maintained from time to time. The holy Qur'an is not only addressed to the Muslims, but it is also addressed to all human beings on the world.

The holy Qur'an was revealed by Allah SWT to Muhammad in the cave Hirah on Ramadhan 17, 611 A.D. (the Christian Era). At that time, Muhammad was 40 years old. That was the first prophethood of Muhammad. The process of revelation was completed over a period of 23 years. The first division of the holy Qur'an (surah) revealed by Allah was Al-'Alaq, verses 1 to 5. The last division of the holy Qur'an was Al-Maa-idah, verse 3. The holy Qur'an was the last book of Allah. There is no book of Allah after the Holy Qur'an. It completes the previous books of Allah like Tawrah, Zabur (Psalms), and Injil (Gospel).

There are 114 divisions of the the holy Qur'an (surah), and 12626 verses. The contents of the holy Qur'an cover all aspects of life of mankind. It means that all mankind (especially Moslems) have to follow what is written in the holy Qur'an without exception. Because of the complete and perfect teachings covered by holy Qur'an, there is nor reason for us as Muslims to add, reduce and revise the contents of the holy Qur'an. There is also no reason for us not to follow what are revealed and written in the holy Qur'an (Darwis, 2000: 47 – 48).

*Answer the following questions based on the text above!*

1. Are all words, phrases, and sentences of the holy Qur'an the

### 12.4. Sentence Structure: WH-Questions

Sebagaimana bahasa Indonesia, bahasa Inggris juga mengenal kata-kata tanya (*question words*) yang selalu muncul dalam komunikasi sehari-hari, baik formal maupun non formal. Istilah "*question word*"

juga disebut dengan “*WH-questions*” karena kalimat-kalimat tanya tersebut berawal dengan huruf *WH*, yaitu: *what, who, whom, when, where, why, which, whose, dan how*.

- A. **What (apa, apa yang)**; digunakan untuk menanyakan benda mati, baik sebagai subyek maupun obyek.

### Examples

1. *What* is your name?
2. *What* will *be* your way of life?
3. *What* makes you have pilgrimage soon?
4. *What* motivated to be a preacher?
5. *What* do you hope from Allah to take Islam as your religion?
6. *What* does father do after magrib?
7. *What* kind of pray did you have a moment ago?
8. *What* made you have midnight pray in the yard?
9. *What* had happened to your parents?
10. *What* will you prepare to celebrate next lebaran day?
11. *What* are you reading?
12. *What* have you said in your pray?

### Notes:

1. Pada kalimat yang tidak mempunyai kata kerja sebagai predikat dalam bentuk *simple present tense* dan *simple past tense* sebagaimana nomor 1 dan 2, kata kerja bantu “*to be*” harus digunakan karena tidak mempunyai kata kerja penuh (*full verb*) sebagai predikat.
2. Apabila *what* berfungsi untuk menanyakan subyek (yang tidak disebutkan/hilang) pada kalimat yang mempunyai kata kerja penuh (*full verb*) sebagai predikat dalam bentuk *simple present tense* dan *simple past tense*, maka kata kerja bantu “*do, does, dan did*” tidak dipakai. Pada kalimat nomor 2, 3, 7 dan 8, *what* berfungsi menanyakan subyek (*subject*). Maksudnya, kalimat-kalimat tersebut tidak memiliki subyek sehingga ditanyakan

subyeknya dengan menggunakan *what*. Dalam kalimat-kalimat tersebut tidak terdapat kata kerja bantu “*do, does, dan did*” karena kata tanya “*what*” berfungsi untuk menanyakan subyek atau menggantikan posisi subyek yang hilang dan ditanyakan.

3. Sebaliknya, bila kalimat yang memiliki kata kerja penuh (*full verb*) sebagai predikat dalam bentuk *simple present tense* dan *simple past tense* tersebut menanyakan obyek (yang tidak disebutkan/hilang) maka kata kerja bantu “*do, does, dan did*” tetap dipakai. Perhatikan kalimat nomor 4, 5 dan 6 di atas.
4. Kalimat yang tersusun dalam bentuk selain *simple present tense* dan *simple past tense*, harus menggunakan kata kerja bantu (*auxiliary verb*) sesuai *tense* masing-masing meskipun memiliki kata kerja penuh (*full verb*) sebagai predikat. Perhatikan contoh nomor 2, 9, 10, 11 dan 12.

**B. Who (siapa);** digunakan untuk menanyakan orang sebagai subyek. *Who* juga bisa digunakan untuk menanyakan orang yang berfungsi sebagai obyek kata kerja (*object of verb*) dalam kalimat.

### Examples

1. *Who* is your religion teacher?
2. *Who* are in the mosque?
3. *Who* usually wakes you up to have your *sahur*?
4. *Who* do you want to give your tithe?
5. *Who* was the first leader of Moslems after the prophet Muhammad died?
6. *Who* were your the prophet Muhammad’s children?
7. *Who* borrowed your prayer rug last night?
8. *Who* did they call yesterday?
9. *Who* will accompany you to go to mosque tonight?
10. *Who* will you ask to stay here with you?
11. *Who* is praying in your bedroom?
12. *Who* was going to campus together with you three days ago?

13. *Who* has explained the topic about pilgrimage to you?
14. *Who* have been waiting for you in your house?
15. *Who* had built the mosque Al-Munawwar in Ternate?

**Notes:**

Sebagaimana aturan pada kata tanya “*what*” maka kata tanya “*who*” juga memiliki penjelasan yang sama, namun ada sedikit perbedaan karena masih ada kata tanya “*whom*” selain “*who*”. Berikut adalah rincian penjelasannya:

1. Pada kalimat yang tidak mempunyai kata kerja sebagai predikat dalam bentuk *simple present tense* dan *simple past tense* sebagaimana nomor 1, 2, 5 dan 6, kata kerja bantu “*to be*” harus digunakan karena tidak mempunyai kata kerja penuh (*full verb*) sebagai predikat.
2. Apabila *who* berfungsi untuk menanyakan subyek (yang tidak disebutkan/hilang) pada kalimat yang mempunyai kata kerja penuh (*full verb*) sebagai predikat dalam bentuk *simple present tense* dan *simple past tense*, maka kata kerja bantu “*do, does, did*” tidak dipakai. Pada kalimat nomor 3 dan 7, *who* berfungsi menanyakan subyek (*subject*). Maksudnya, kalimat-kalimat tersebut tidak memiliki subyek sehingga ditanyakan subyeknya dengan menggunakan *who*. Dalam kalimat-kalimat tersebut tidak terdapat kata kerja bantu “*do, does, did*” karena kata tanya “*who*” berfungsi untuk menanyakan subyek atau menggantikan posisi subyek yang hilang dan ditanyakan.
3. Sebaliknya, jika kalimat yang memiliki *full verb* sebagai predikat dalam *simple present tense* dan *simple past tense* tersebut menanyakan obyek (yang tidak disebutkan/hilang) maka kata kerja bantu “*do, does, did*” tetap dipakai. Perhatikan kalimat nomor 4 dan 8 di atas.
4. Apabila kalimat yang tersusun menggunakan bentuk selain dari *simple present tense* dan *simple past tense*, maka kata kerja bantu (*auxiliary verb*) harus digunakan sesuai *tense* masing-masing meskipun memiliki kata kerja penuh (*full verb*) sebagai

predikat. Perhatikan contoh nomor 9, 10, 11, 12, 13, 14 dan 15.

**C. Whom (siapa);** digunakan untuk menanyakan orang sebagai obyek (*object*), baik obyek kata kerja (*object of verb*) maupun obyek kata depan (*object of preposition*). *Whom* tidak bisa digunakan untuk menanyakan subyek (*subject*).

### Examples

1. *Whom* do you want to call?
2. To *whom* are you speaking?
3. *Whom* is calling you?
4. *Whom* did you ask to? atau To *whom* did you ask?

6. *With whom* did you read the holy Qur'an yesterday morning?
7. *Whom* has she been teaching to read the holy Qur'an?
8. *Whom* will we appoint to keep the time of prayer?
9. *Whom* was admitted to be the first leader (*khalifah*) after the prophet Muhammad
10. *Whom* had Sindy looked for when we saw her yesterday?

### Notes:

1. Semua kalimat yang mengandung kata tanya "*whom*" harus diikuti kata kerja bantu, termasuk *do*, *does*, dan *did* dalam bentuk *simple present tense* dan *simple past tense* pada kalimat yang memiliki kata kerja penuh (*full verb*) sebagai predikat atau yang sering disebut dengan "*verbal sentence*".
2. Dalam bahasa lisan (komunikasi sehari-hari), "*whom*" jarang digunakan. Orang biasanya menggunakan "*who*". "*Whom*" hanya digunakan dalam pertanyaan resmi (*formal question*). Namun demikian, hanya "*whom*" saja yang bisa dipakai jika sebelumnya ada kata depan, bukan "*who*". Artinya hanya "*whom*" yang bisa menjadi obyek kata depan (*object of*

*preposition*), sedangkan “*who*” tidak bisa didahului oleh kata depan.

**D. *When (kapan)***; digunakan untuk menanyakan waktu.

1. *When* do you usually go hometown?

2. Semua kalimat yang mengandung kata tanya “***when***” harus diberi kata kerja bantu (*auxiliary verb*) berdasarkan *tense* yang berlaku pada kalimat itu, dan tempatnya antara “***when***” dan subyek.

2. Semua kalimat yang mengandung kata tanya **“where”** harus diikuti kata kerja bantu (*auxiliary verb*) berdasarkan *tense* yang berlaku pada kalimat itu.

**F. Why (mengapa, kenapa);** digunakan untuk menanyakan:
